

Kathleen Slonager, RN, DiHOM, ADS, AE-C, CCH

Available for Mentoring and Clinical/Case Supervision

I began Transformational Health, PC in 2004, with the desire to provide holistic health care using homeopathy. This came after having studied since 1993 and graduating from a 3 year homeopathy program. Fast forward to 2011, when I received the national Board certification as a Classical Homeopath.

I am honored to walk with people as they take their journey to balance, whether in acute or chronic situations, guiding them to health and vitality utilizing the therapeutic principles of homeopathy.

And I've recently parlayed this passion into mentoring students and graduates of homeopathy.

Here's a bit of what folks are saying:

- *"I have been awarded my CCH! Thank you for all your wisdom and guidance. I have appreciated the work you did with me." RR May 2019*
- *"...just a quick reply to thank you for always being so positive and encouraging... I'm feeling better and better about the case taking." MH August 2018*
- *...Kathleen is generous and giving of her time and with sharing her over 15 years of knowledge and skill acquired in her homeopathic practice. My case taking and case management skills have increased with her guidance. I am fortunate to have such a competent classical homeopath as my mentor." DD August 2019*

Please note: everyone I've worked with has gone on to achieve their Certification!
